GENERAL ELIGIBILITY RULES

According to UIL standards, students could be eligible to represent their school in interscholastic activities if they:

When the parents do not reside inside the district attendance zone the student could be eligible if: the student has been in continuous attendance for at least one calendar year and has not enrolled at another school; no inducement is given to the student to attend the school (for example: students or their parents must pay their room and board when they do not live with a relative; students driving back into the district should pay their own transportation costs); and it is not a violation of local school or TEA policies for the student to continue attending the school. Students placed by the Texas Youth Commission are covered under Custodial Residence (see Section 442 of the Constitution and Contest Rules).

- have not been recruited. (Does not apply to college recruiting as permitted by rule.)

Baseball, Basketball, Football, Soccer, Softball, and Volleyball camps where school personnel work with their own students may be held in May, after the last day of school, June, July and August prior to the second Monday in August. If such camps are sponsored by school district personnel, they must be held within the boundaries of the school district and the superintendent or his designee shall approve the schedule of fees.
- have observed all provisions of the Athletic Amateur Rule. Students may not accept money or other valuable consideration (tangible or intangible property or service including anything that is usable, wearable, salable or consumable) for participating in any athletic sport during any part of the year. Athletes shall not receive valuable consideration for allowing their names to be used for the promotion of any product, plan or service. Students who inadvertently violate the amateur rule by accepting valuable consideration may regain athletic eligibility by returning the valuable consideration. If individuals return the valuable consideration within 30 days after they are informed of the rule violation, they regain their athletic eligibility when they return it. If they fail to return it within 30 days, they remain ineligible for one year from when they accepted it. 1. The objectives for this program are:
 - i. To allow each student in programs subject to testing to make a commitment against drug/alcohol use.¹
 - ii. To provide a deterrent to drug/alcohol use for students in grades 7-12.
 - iii. To ensure the health and safety of students participating in an extracurricular activity.
 - iv. To provide a drug/alcohol education and counseling program for students who test positive for drug/alcohol use and for those students who are at risk for drug/alcohol use.
 - v. To provide students with a tool to deal with peer pressure.
2. Students in grades 7-12 who participate in extracurricular activities will be required to submit to drug/alcohol testing consistent with this policy. For the purpose of this policy, extracurricular activities include, but are not limited to:
 - i. All UIL activities;
 - ii. School-sponsored student groups/clubs/organizations
 - iii. Student Council;
 - iv. All elected/appointed student officers;

Additionally, any student may voluntarily agree to participate in the drug testing program with the written consent of their parents/guardians and the payment of the proper drug/alcohol testing fees.

When the athletic director/sponsor/campus administrator has a reasonable suspicion that a student subject to the program is currently using drugs/alcohol, the athletic director or fine arts director may require the student to submit to a test under this policy. "Reasonable suspicion" means a suspicion of drug/alcohol use based on specific observations made by teachers/coaches/administrators/sponsors of the appearance, speech, or behavior of a student subject to this policy; the reasonable inferences that are drawn from those observations; and/or information of drug/alcohol use by a student subject to this policy supplied to school officials by other students, staff members, or patrons.

3. Prior to engaging in any extracurricular activity which is governed by this policy, a parent/guardian of a student, and the student, must both sign a written consent authorizing drug/alcohol testing of the student. Students who have reached the age of majority, or their disabilities of minority have been removed, will sign the written consent authorizing drug/alcohol testing of the student.

All students covered by this policy will be required to submit to random drug/alcohol testing. Random testing may be conducted at any time. Random testing may be conducted as determined by the Superintendent or the campus principal. The names of all eligible students will be placed in a computer generated "pool." Random selections from that pool will be conducted by the testing service contracted by the District.

4. Drug/alcohol testing will be done by a nationally certified drug testing laboratory. The District will contract with a certified drug-testing laboratory. The laboratory will follow strict procedures for the chain of custody and access to test results. The laboratory will provide qualified collectors to oversee collection of specimens. The service will provide Medical Review Officer (MRO) services for the interpretation and verification of positive results. The MRO will report all test results to designated school officials. Results will not be provided either orally or in writing to any person who has not been

designated by the district to receive results. 5. Drug/Alcohol Testing will be performed by urinalysis in accordance with accepted practices and procedures as established by the certified drug/alcohol testing laboratory with whom the District contracts. Student privacy will be protected to the greatest extent possible during the collection and coding of urine specimens. Students will provide urine specimens in an empty restroom accompanied by an adult monitor of the same gender. Male students will produce a sample at a urinal, remaining fully clothed with their backs to the monitor. Female students will produce a sample in a closed stall. After the specimen is produced, it will be handed to the monitor.
6. Results of any drug/alcohol test will not be given to law enforcement authorities nor be used for any school district discipline, except as related to applicable activities noted in this policy. Access to written drug/alcohol results will be limited to the following:
 - i. Parent/Guardian
 - ii. Student
 - iii. Superintendent Designee

Access to verbal notification that a student has tested positive for drug/alcohol use will be provided to the following:

- iv. Principal

All information related to the testing or the identification of students as a user of illegal drugs/alcohol will be protected by the District and its employees, officers, and agents as confidential, unless otherwise required by law, in response to overriding public health and safety concerns, or as authorized by the parent/guardian or student. The District will destroy the records maintained under this policy in accordance with the District's records retention schedule.

7. If the drug test indicates positive results, the laboratory will immediately forward the results to its MRO. The MRO will contact the designated school official to report the positive result. The school official will contact the parent/guardian to determine if prescription medication or other legal substances may have caused the positive result.
